

5th PHASE*BOOKLET

RULES, STANDARDS, AND EXPECTATIONS

Straight, Inc.

FIFTH PHASERS: You are on 5th phase, which is a big growing part of your program. You are expected to apply yourselves in all your daily affairs, while keeping your priorities in line. So far, your main objectives were to 1) Learn how to keep an honest relationship with yourself 2) Learn how to build a constructive family relationship 3) Achieve progress in schooling and/or work and 4) Learn how to build constructive friendships while working on leisure time. Now as you enter 5th phase, you have new areas to learn about and grow in.

The first area is giving back to the group, or as we call it, really applying your seventh step. We expect your example to be sharp, and we expect you to blend a combination of love and strength that will help others. This is done by relating your feelings to others in group, on one to one's, by dime therapy, by using your awareness on intakes, and maybe co-leading a large or small group rap.

The second area is learning how to associate and build constructive friendships with the opposite sex. This is done by becoming involved in "mixed group permissions", and by listening and applying in the weekly 5th phase raps.

The third area is preparing yourself to seven-step, and to develop in those areas which you will experience after completing your five phases.

In general, 5th phase is serious phase that involves a wide variety of feelings and encounters. It is a combination of all the important areas of being straight, compacted into group raps, parent raps, small group permissions, large group permissions, mixed group permissions, outings, and various activities. 5th phase is a special phase, and by far the most active and important phase of your program. We expect you to apply honesty and follow your seven steps. If you are not meeting

these criteria, you will not find yourself on 5th phase very long. Work hard, put out a lot of effort, and make your 5th phase a positive, bright spot of your Straight program.
